# Friends of Marple Memorial Park Minutes of Meeting

Navigation, Tuesday 10 September 2024

**Present:** Malcolm Allan, Patrick O'Herlihy, Joyce Reed, Mick & Larry Thompson, Michela Wood, Micheala Meikle, Diane Jackson

- **1** Apologies: Helen & Phil Wiles, Anne Frazer,
- 2 Minutes of last Meeting: Agreed

## 3 Matters Arising: ACTION

## **Exercise equipment**

Snagging list: Broken joint covers and sit up board screw fixing are to be replaced/repaired by Contractor at no charge. This leaves the peeling surface to be remedied.

### **Boules Court**

Clarification of costs for Boules as per FOMMP Minutes of 14 March 2024 item 3.3: The costs for a special petanque contractor was £5,727 to refurbish the existing layout or £6,887 to refurbish and extend but there were also quotes of £2,111 to refurbish and £3,106 to refurbish and extend from an ordinary landscape contractor that were much more affordable.

MT reported that the Boules Court was too compacted and not draining sufficiently. There is a danger that a contractor may increase the compaction and cause further drainage problems. The timbers are rotted away. It was noted that the Boules Court has not been used by any Marple people in the last 2 years and only by New Mills U3A recently. It was not felt to be a priority at the moment. JR stated replacing the rotten wooden timbers would be sufficient in the short term and the committee concurred.

### Community Hub Transition Arrangements

A date has been arranged for Wayne Chaisty to dismantle the structure for safe storage. This is 19<sup>th</sup> September.

FOMMP, via Helen and Phil, asking if there is any community work the Beavers could do as part of their Beavers badgework. The Committee thought the suggestion of helping to plant some bulbs would be appropriate. MA will liaise with the Beavers.

A temporary shower and toilet block for the contractor is planned to be

placed on the grassed area between Hollins House and the bowling

green. The temporary public toilets will be located there too.

MA

Rose Frog needs to be moved, but there is challenge in how to fix the frog to the base or a new base. MA to contact MW and Bernard to understand how this was done originally. Jon Headlam is investigating

JH MA

how other frogs have been fixed.

MA will check that removal of historical artefacts from the Library has been completed satisfactorily.

Tree planting is planned for October/November so we hope to have

time to plant the donated bulbs before Christmas
